

## **Senior Environmental Professional / Consultant**

### **Location: Torrance, California**

Davenport Engineering, Inc. has a rare and exciting opening for a senior environmental professional who is equal parts a leader, subject matter expert, and entrepreneur. This position offers the opportunity to shape one's own destiny as well as the destiny of a respected and well-established environmental consulting firm. The right candidate will quickly progress to a principal level position with executive leadership and ownership possibilities.

#### **About the Company**

Davenport Engineering, Inc. is a full service environmental consulting firm located in Torrance, California, with expertise in the areas of air, water, waste, hazardous materials, climate change, and energy. Our clients include businesses in the petroleum, industrial gas, chemical, manufacturing, food, and aerospace industries. Our company has a reputation for employing hands-on, hard-working engineers and scientists, and for developing well rounded employees.

We are a team of 20+ professionals who share a passion for meeting our clients' environmental compliance and reporting challenges. We embrace the philosophy of "total engineering" whereby we are empowered to manage all aspects of the job – project quality, budget, and schedule; training and personal development – and we are rewarded for success accordingly. We work and play hard in a fun, flexible, friendly, and supportive workplace.

#### **About the Position**

This opening is a senior leadership position. Your role will include managing projects and teams, consulting on complex issues, developing client relationships, and contributing to marketing initiatives. You will also be invited to take a seat on our management team and have a voice in setting the company's strategic growth and business planning objectives. Advancement to a principal level position with an ownership stake is expected for the right candidate.

The ideal candidate is an experienced, established, and proven environmental professional or consultant with ambition to be a difference maker at a growing company with a bright future.

### **Qualifications**

- B.S. degree in Chemical Engineering, Environmental Science, Chemistry, or related discipline, and 10+ years of work experience. Candidates with other educational or work experience are encouraged to apply if uniquely qualified for certain aspects of this position (e.g., key industry experience, business or entrepreneurial background)
- An entrepreneurial mindset with the ability to develop vision and strategy
- Talent to lead and motivate people
- Core competencies: self-motivated, detail oriented, well organized, client focused, and strong written and verbal communication (technical writing, public speaking)
- Subject matter expertise in any of the following areas: emission inventories, compliance reporting, permitting, air quality modeling and health risk assessment, auditing, regulatory program development, strategic planning, and advocacy

### **Benefits**

Current benefits include a SIMPLE IRA retirement plan with company match; medical, dental, and vision insurance; short-term and long-term disability insurance; paid vacation and sick leave; paid holidays; performance-based bonuses and spot awards; a seasonal 9/80 work schedule; and various company team building and professional development events.

### **Inquiries**

Davenport Engineering, Inc. is an *Equal Opportunity Employer*. All qualified candidates will receive equal consideration. For more information or to express interest in this position, please contact Administration Manager Joanne Ordinario at (310) 787-4600 or [joanne.ordinario@davenport-co.com](mailto:joanne.ordinario@davenport-co.com).
